Job Description

Company:
Zalando SE
Location:
Berlin, Germany
Employment Type:
Full-time
Job Description:
As an Applied Science Manager (Forecasting) at Zalando SE, you will lead the Applied Science Forecasting team. Your role will involve developing cutting-edge forecasting solutions to support Zalando's $10Bn+ business. You will coach junior colleagues and manage the team to stay up-to-date with the latest research in forecasting science. The ideal candidate should have a strong academic background, experience in demand forecasting, and proficiency with Python and machine learning frameworks. You will be collaborating with other teams and senior leaders to apply state-of-the-art forecasting solutions.
Key Responsibilities:
• Lead the Applied Science Forecasting team.
• Collaborate with cross-functional teams to develop innovative forecasting solutions.
• Stay updated on the latest research in forecasting and drive scientific publications.
• Scale, manage, and mentor scientists, providing guidance on their projects.
• Integrate complex project roadmaps and ensure delivery of business value.
Requirements:
• PhD or equivalent academic background in a STEM field.
• Strong experience in demand forecasting science.
• Proficiency with Python and machine learning frameworks (e.g., Pytorch, TensorFlow).
• Ability to translate scientific research into practical applications.
• Strong leadership, problem-solving, and mentoring skills.
• Fluent in business English.
Benefits:
• An inclusive and diverse work environment.
• Opportunities to publish research in international conferences.
• Collaborate with highly skilled applied scientists.
• Professional growth and leadership development.
